

Christopher Columbus Charter School MTSS At a Glance (English Language Arts & Math)

What is MTSS (Multi Tiered Systems of Support) and how does this help my child?

- A data--driven framework to enable early identification and strategic interventions for students at academic or behavioral risk;
- A multi-level instructional framework aimed at improving instruction for ALL students
- A shared and collaborative decision-making process among professional educators & parents.

In addition to your child’s grade level instruction and in order to help your child accelerate their progress, the following resources and interventions will be utilized. Please note that the groupings are flexible and fluid and will change as students grow and achieve their respective benchmarks.
